

EXERCISE 7-2 Metric organization

For each time signature, specify whether the meter is simple or compound, and provide the number of beats per bar, the value of the beat, and the division level. When possible, use beams to show the division level within each beat group. The first is done for you.

time signature:	$\frac{6}{8}$	$\frac{4}{4}$	$\frac{12}{16}$	$\frac{9}{4}$	$\frac{3}{8}$	$\frac{6}{4}$	$\frac{9}{8}$
simple or compound:	compound						
# of beats per bar:	two						
value of the beat:							
division level:							

time signature:	$\frac{2}{8}$	$\frac{3}{4}$	$\frac{12}{8}$	$\frac{9}{2}$	$\frac{3}{2}$	$\frac{6}{2}$	$\frac{4}{8}$
simple or compound:							
# of beats per bar:							
value of the beat:							
division level:
